

SORBERTEXTILE™ MGV

medical grade vinyl surface covering

Sorbertextile™ MGV is a special grade surface covering vinyl that protects against bacteria, grease, blood, oil and microorganisms. It is applied to acoustic materials such as foam or polyester and is designed for use in military vehicles, emergency vehicles or sterile work environments.

Sorbertextile™ MGV is engineered to inhibit the spread of infection or diseases which is vital in a sterile workplace. Stains that are associated with military or emergency vehicles can easily be cleaned using warm soapy water without affecting its performance. Stubborn stains can be removed using appropriate cleaning solvent types with a gentle cloth.

Sorbertextile™ MGV's high tensile strength creates an efficient surface covering that can withstand abrasions resulting in extended product performance. It is also highly flexible making it easy to apply and can be tailored to meet the specification requirement.

PRODUCT SPECIFICATIONS

Colour	White
Available	Standard roll width: 1370 mm (53.9 in) Nominal thickness: 0.5 mm (0.02 in) Weight: 550 gsm (16.2 oz/yd ²)
	Custom sizes available depending on MOQ

Tolerances: Length: ±1%, Width: -0/+5 mm (0.2 in), Thickness: ±0.5 mm (0.02 in), Weight: ±10%

applications

- Military vehicles
- Emergency vehicles
- Hospitals or medical clinics
- Veterinary clinics

features

- Prevents the growth and spread of bacteria and germs
- Resistant to blood, urine, grease, oil and microorganisms
- Tough and durable to withstand abrasions
- Easy to clean with water and mild soap
- Suitable for emergency applications in military vehicles and emergency vehicles

MATERIAL PROPERTIES

Test	Property	Report no.	Result
AS 2001.2.3.1	Test for textiles - Determination of maximum force	-	Machine direction: 500 N/50 mm Cross direction: 400 N/50 mm
AS 2001.2.10	Test for textiles - Determination of tear resistance	-	Machine direction: 10 N Cross direction: 10 N
FMVSS 302	Flammability of interior materials	27419BD1	Complies
